

North Thurston Public Schools

Helping Hands Program

Is your non-profit, place of worship, or other organization, interested in partnering with a neighborhood school? Helping Hands could be a great volunteer opportunity for you!

The Helping Hands Program supports student achievement and a school's improvement plan through volunteer opportunities for your members and recognition for your organization.

Get involved today!

This unique partnership allows your organization to help support your local school and be recognized for doing so. Commit to at least 3 agreed-upon events or activities at your partner school and we'll help tell the community all about it!

What are the benefits?

In recognition of your volunteer support each school year, your organization will receive:

- A Helping Hands Partner logo and banner
- Recognition on the district Helping Hands webpage (including photo spotlight stories of your group), school and district websites, social media, and/or at school events
- One Peachjar e-flyer per school year that can be used to share your organization's events with our broader school community

Opportunities

Partners are asked to support at least 3 school events or projects during the school year. These may include:

- Regular mentoring, tutoring, classroom, or recess volunteering
- Extracurricular club volunteering
- Student support activities (helping with weekend meal bags and school resource closets)
- Volunteering for health screenings
- School supply drives
- Grounds improvement (cleanup, gardens, murals, playground)
- Field trip or special event volunteering
- And more!
