

The North Thurston Public Schools has an obligation to staff, students, and citizens to provide safety in the workplace and to provide the best possible learning climate for students. It is recognized that any illegal or inappropriate use of drugs and alcohol by district employees can be expected to negatively impact that employee's capacity to fulfill his/her responsibilities. When such negative impact occurs, that situation becomes a matter of grave concern for appropriate district action.

For purposes of this policy, the "workplace" is defined to mean the site for the performance of work done, which includes work done in connection with a federal grant. The "workplace" includes any district building or any district property; any district-owned vehicle or any other district-approved vehicle used to transport students to and from school or school activities; and off district property during any school-sponsored or school-approved activity, event or function, such as a field trip or athletic event, where students are under the jurisdiction of the district which could also include work on a federal grant.

Prohibited Behavior

To help maintain a drug-free school, community, and workplace, the following behaviors will not be tolerated:

1. Reporting to work or the workplace under the influence of alcohol, illegal and/or controlled substances including marijuana (cannabis), anabolic steroids or other intoxicants.
2. Using, possessing, transmitting alcohol, illegal and/or controlled substances, including marijuana (cannabis) and anabolic steroids, in any amount, in any manner, and at any time in the workplace.
3. Any staff member convicted of a crime attributable to the use, possession, or sale of illegal and/or controlled substances, including marijuana (cannabis) and anabolic steroids, will be subject to disciplinary action, including termination.
4. Using district property or the staff member's position within the district to make or traffic alcohol, illegal and/or controlled substances, including marijuana (cannabis) and anabolic steroids.
5. Using, possessing or transmitting illegal and/or controlled substances, including marijuana (cannabis) and anabolic steroids.

Notification Requirements

Any staff member who is taking prescribed or over-the-counter medications will be responsible for consulting the prescribing physician and/or pharmacist to ascertain whether the medication may interfere with the safe performance of his/her job. If the use of a medication could compromise the safety of the staff member, other staff members, students or the public, it is the staff member's responsibility to use appropriate personnel procedures (e.g., use leave, request change of duty, or notify his/her supervisor of potential side effects) to avoid unsafe workplace practices. If a staff member notifies his/her supervisor that the use of medication could compromise the safe performance of his/her job, the supervisor, in conjunction with the district office, will then determine whether the staff member can remain at work and whether any work restrictions will be necessary.

As a condition of employment, each employee will notify his or her supervisor of a conviction under any criminal drug statute for a violation occurring in the workplace. Such notification will be provided no later than five (5) days after such conviction. The district will inform the federal granting agency within ten (10) days of such conviction, regardless of the source of the information. As a further condition of employment, each employee shall abide by the terms of this policy respecting a drug-free workplace.

Disciplinary Action

Each employee will be notified of the district's policy and procedures regarding employee drug activity at work. Any staff member who violates any aspect of this policy will be subject to disciplinary action, which may include termination. In cases where the district in its sole discretion determines that reinstatement is appropriate, it may require, at the employee's expense, to satisfactorily complete a drug rehabilitation treatment program approved by the district. Nothing in this policy will be construed to guarantee reinstatement of any employee who violates this policy, nor does the district incur any financial obligation for treatment or rehabilitation ordered as a condition of eligibility for reinstatement.

The district may notify law enforcement agencies regarding a staff member's violation of this policy at the district's discretion or take other actions as it the district deems appropriate.
