

POLICY - ADMINISTRATIVE INTERNSHIPS

6310

The Board considers it appropriate that the District provide training opportunities for prospective administrators.

In providing such training opportunities, the District makes no guarantee of future employment in an administrative capacity.

Approval of internships will be accomplished on an individual basis under the direction of the Superintendent or designee. Specific factors to be used in determining whether or not the District will accept an individual for internship training will include, but may not be limited to the capacity of the District to accommodate the request, the academic record of the applicant, the applicant's demonstrated teaching ability, demonstrated leadership qualities, communication skills and human relations skills.

The Superintendent shall establish such procedures and rules as are considered appropriate for the implementation of this policy.

Adopted:	February 3, 1986	North Thurston School District Board of Directors
Amended:	September 21, 2010	North Thurston Public Schools
