

FACILITIES ADVISORY COMMITTEE

JANUARY 2019

WORKSHOP #7 AT SEVEN OAKS ELEMENTARY

SAFETY + SECURITY

K-12 SAFETY + SECURITY

Workshop #7 focused on the committed and ongoing effort (i.e. 1-past, 2-present, and 3-future) North Thurston Public Schools (NTPS) devotes to Safety and Security.

1

PAST PERFORMANCE

- Access control projects
- CCTV installations
- Radios
- ADA ramps
- Portable removal/replacement
- Parking lot restripe
- Play structures
- Security fencing

2

CURRENT PROJECTS

- Ongoing CCTV installs
- Ongoing access control projects
- Fire and burglar systems
- Additional radios
- Emergency response access

3

FUTURE EFFORTS

- Define what safety and security means for NTPS
- Achieve parity in safety and security for all facilities district-wide
- Maintain friendly, welcoming environment
- Provide sense of wellbeing to promote effective learning

SAFETY + SECURITY UPGRADES

Primary entrances will require adding a monitored vestibule with access control to prevent unauthorized visitors.

THIRD-PARTY PERSPECTIVES

A respected security electronics representative offered the following:

PRIORITIES

- Student and staff safety
- Protecting facilities and assets
- Community access
- User-friendly environments

IMPLEMENTATION

- Crime prevention through environmental design (CPTED)
- Intrusion detection and reporting
- Video surveillance

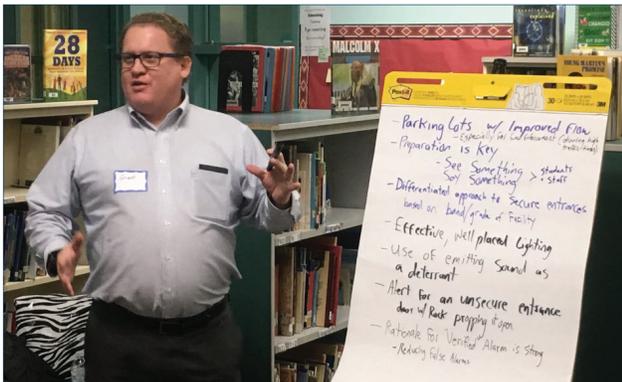

SAFETY IS THE TOP PRIORITY

Stakeholder buy-in is critical to achieving a safe, secure District.

Use technology proactively to prevent a situation, not to react after the fact.

There is no prescription. Every District must plan for its own context.

FAC BREAKOUT GROUP TAKEAWAYS

- 🔒 Safety and security is much more than an active shooter situation.
- 🧠 Provide mental health services.
- 👤 Empower staff and volunteers: Security takes community.

LOOKING FORWARD

February's FAC workshop will continue the conversation of safety and security, a well as community programs. Expect to discuss:

- Community programs: users, facilities, operational costs, and cost recovery
- Demographics
- Defining safety and security
- Lessons learned

Next FAC Workshop

Thursday, February 28
